ABOUT US

Warrior Group, is a leader in adventure construction, operations and destination development. With over 30 years of expertise across Middle East and Europe, we specialize in creating world-class adventure attractions, integrated tourism destinations, mixed-use assets, adventure driven hospitality, urban and recreational developments that inspire communities and empower partners. Our end-to-end model ensures precision, quality, and consistency, turning landscapes into high-impact destinations that inspire people and unlock long-term value.

WE DELIVER, WITH LASER PRECISION, ADVENTURE EXPERIENCES THAT INSPIRE COMMUNITIES AND EMPOWER BUSINESSES.

WARRIOR GROUP OVERVIEW

Warrior Group is a multidisciplinary powerhouse in the adventure, tourism, and experience economy, leading the development, operation, and promotion of outdoor destinations across the Middle East and beyond. From rugged desert terrains to mountain summits, our fully integrated group of companies delivers end-to-end solutions for governments, developers, and brands aiming to unlock the true potential of adventure.

Our group structure allows us to control every layer of project delivery, from strategic planning and on-ground construction, to world-class operations, hospitality, events, gear, and hospitality. Each subsidiary is a specialist in its field, united by a shared mission: to create, build, and operate extraordinary experiences.

Warrior Group is the strategic heart of the organization, Warrior Group drives the vision, leadership, and innovation behind all subsidiaries. Operating as the umbrella brand, it oversees business development, strategic partnerships, and high-level project execution across the region. With deep market insight and a passion for adventure-led development, Warrior Group sets the pace for the industry.

MISSION & VISION

MISSION:

To design, build and operate inspiring adventure destinations with passion, precision, and purpose.

VISION:

To become a global leader in adventure destination development, offering turnkey solutions that transform landscapes into lasting legacies.

OUR POWERHOUSE BRANDS

OUR POWERHOUSE BRANDS

Building innovative and sustainable infrastructure for commercial, Industrial, adventure and recreation.

WARRIOR CONSTRUCTION

Delivering world-class operations and assets management for adventure destinations.

WARRIOR OPERATIONS

Transforming hospitality with integrated adventure experiences that elevate guest satisfaction.

WARRIOR HOSPITALITY

Guiding businesses and governments in planning, designing, and operating adventure destinations.

WARRIOR CONSULTANCY

Providing industry-leading adventure equipment for safe and thrilling experiences.

WARRIOR GEAR

Delivering sport and adventure, large scale events that engage audiences and amplify brands.

WARRIOR EVENTS

A woman with long hair, wearing a yellow tank top and brown pants, is climbing a dark, craggy rock face. She is positioned horizontally, with her arms extended upwards, gripping a rock overhang. Her legs are also extended, with one foot on a rock ledge. The background shows a vast, hazy mountain range under a cloudy sky. The overall scene is dramatic and emphasizes physical challenge and outdoor adventure.

COMPANIES OVERVIEW

WARRIOR CONSTRUCTION

Warrior Construction is a specialized division within Warrior Group, dedicated to delivering end-to-end construction solutions for high-impact tourism, adventure, and experiential destinations. With a strong foundation in engineering excellence and on-the-ground experience in challenging environments, Warrior Construction is built for projects that demand precision, durability, and expert knowledge.

WARRIOR OPERATIONS

Behind every great experience is world-class execution. Warrior Operations is responsible for the day-to-day running of adventure destinations and facilities, from staffing and safety to SOPs and customer service. With operational standards rooted in international best practices, our team ensures every visitor journey is smooth, secure, and spectacular.

WARRIOR CONSULTANCY

Warrior Consultancy partners with governments, developers, and investors to bring bold ideas to life. Our services span feasibility studies, destination master planning, economic impact forecasting, and product design. Armed with proprietary frameworks and on-ground experience, we help clients turn natural assets into iconic adventure destinations.

WARRIOR

WARRIOR HOSPITALITY

As adventure expands, so does the need for immersive hospitality. Warrior Hospitality develops and manages adventure-inspired hospitality developments, from mountain eco-lodges to boutique hotels. We focus on comfort, sustainability, and location-driven design, providing accommodations that connect guests to the landscape and adventure experiences

WARRIOR EVENTS

Warrior Events is the experience engine of the group, delivering adrenaline-fueled events: races, obstacle courses, and high-impact adventure activations. Known for flagship events like Desert Warrior Challenge and Gov Games, our team is a regional leader in creating scalable, safe, and unforgettable mass participation events. From concept to crowd control, we bring the energy.

WARRIOR GEAR

Warrior Gear is the official distribution arm of Warrior Group, specializing in high-performance adventure equipment for commercial use. We supply and support a curated range of world-leading brands and systems used across the adventure industry. Warrior Gear provides certified, cutting-edge solutions that meet the highest global standards for safety, durability, and user experience.

WARRIOR ENDORSEMENT

A WARRIOR GROUP
EXPERIENCE

At Warrior, we greatly pride ourselves on delivering world-class adventure experiences. We stand behind every experience wholeheartedly and simply do not involve ourselves in anything that does not demand and deliver excellence. Our values and dedication to being laser-precise in everything we do have ensured that the experiences we endorse as 'A Warrior Group Experience' are synonymous with exceptional quality. It is for this reason that we highly recommend and request the use of our endorsement landmark within certain communication elements and touchpoints for the experience. The relationship and positioning of the landmark can be determined and agreed upon during the design phases of the experience.

A person is kayaking on a lake at sunset. The sun is low on the horizon, creating a warm, golden glow. In the foreground, the person's hands are visible, gripping a black paddle. In the middle ground, another kayaker is visible, wearing a yellow life vest and paddling away. The water is calm, and the sky is a mix of blue and orange.

WHAT SETS US **APART**

What sets Warrior Group apart is our unique ability to seamlessly blend adventure expertise with end-to-end delivery; designing, building, and operating world-class adventure assets that are both thrilling and excel operationally. With deep regional insight, a hands-on approach, and a commitment to international safety standards, we don't just construct experiences, we create destinations that engage communities, drive tourism, and stand the test of time. Our strength lies in structured execution, innovation, and a passion for turning bold visions into reality.

CERTIFICATIONS

At Warrior Group we prioritize excellence in every aspect of our operations. Our commitment to quality is reflected in our adherence to rigorous standards and certifications across various domains.

ISO 9001:2015

Quality Management System (QMS): Ensures consistent processes meeting customer needs through documentation, audits, and continuous improvement.

ISO 22301:2019

Business Continuity Management System (BCMS): Maintains critical business functions during emergencies through risk assessments, response plans, and regular testing.

ISO 45001:2018

Occupational Health & Safety Management System (OHSMS): Prioritizes employee safety with risk identification, prevention, and compliance measures.

ISO 31000:2018

Risk Management: Proactively identifies, assesses, and mitigates risks throughout the organization, integrating risk management into strategic planning and operations.

ISO/IEC 27001:2022

Information Security Management System (ISMS): Safeguards sensitive information assets through robust controls, risk assessments, and cybersecurity measures.

ISO 14001:2015

Environmental Management System (EMS): Minimizing our environmental impact through effective resource management, pollution prevention, and continual improvement.

These certifications underscore our commitment to quality, business continuity, occupational health and safety, effective risk management, and information security. We continuously strive to meet evolving needs while upholding the highest standards of integrity.

EXTREME TERRAIN **TEAM**

At Warrior Group, our Extreme Terrain solutions are designed to overcome challenges that traditional access methods can't. Whether it's working at height, in confined spaces, or in sensitive environments where scaffolding or heavy equipment is impractical, we provide precise, efficient, and safe access to critical areas. Our multi-disciplinary teams combine rope access expertise with hands-on experience in construction, inspection, maintenance, and repair. This enables us to deliver full-cycle solutions, from assessment and diagnostics to execution and close-out, with minimal disruption to your site operations. We serve diverse sectors including aviation, hospitality, real estate, infrastructure, and energy, with custom-tailored rope access solutions for each unique project.

EXTREME TERRAIN TEAM

Warrior Group is a regional leader in specialist access, construction, and adventure infrastructure. Our Extreme Terrain Team was born out of real-world operational demands, accessing the most extreme environments to build, inspect, and maintain structures where conventional methods fail. From unique airport roofing to remote suspension bridges and facade maintenance, our teams operate with surgical precision in the most complex, inaccessible, or hazardous environments.

Our standout achievement: installing customised roofing panels at the Red Sea International Airport, with zero safety incidents, zero disruption to operations, and 100% on-time delivery.

GEOGRAPHIC COVERAGE & MOBILIZATION

Warrior Group's extreme terrain team operates across the GCC with a reputation for rapid response and turnkey deployment. Our in-house logistics, certified personnel, and mobile rigging units allow us to mobilize quickly, whether for emergency call-outs, scheduled maintenance, or mega-project support.

We work across diverse terrains, from coastal airports and desert giga-projects to urban towers and mountainous tourism hubs.

WE OPERATE IN

- Saudi Arabia: Riyadh, Red Sea, AlUla, NEOM, Abha, Jeddah
- United Arab Emirates: Dubai, Abu Dhabi, Ras Al Khaimah, Fujairah
- Oman: Musandam, Jebel Akhdar, Salalah

OUR MOBILIZATION ADVANTAGE

- In-house rope access kits and rigging systems
- Regionally distributed workforce for on-demand deployment
- Pre-approved vendor with major giga-project clients and contractors

WHY EXTREME TERRAIN TEAM?

In today's fast-paced construction and infrastructure environments, traditional access methods like scaffolding, lifts, and cranes are often too slow, too costly, or too disruptive, especially in sensitive, high-traffic, or architecturally complex settings.

That's where Extreme Terrain Team comes in, not as a workaround, but as a purpose-built, precision-engineered solution for modern vertical challenges.

At Warrior Group, we apply rope access to deliver critical works faster, safer, and more efficiently than conventional methods. Whether it's roofing an airport terminal, inspecting a 60-storey facade, or installing cladding on a remote hospitality structure, rope access allows our teams to operate with maximum control and minimal disruption.

By using lightweight, mobile systems and eliminating the need for heavy machinery or obstructive platforms, we help clients accelerate timelines, reduce operational impact, and significantly lower costs, all while achieving world-class safety and quality outcomes. For time-sensitive, technically demanding, or visually exposed projects, rope access isn't an alternative.

FASTER DEPLOYMENT

Quick setup and minimal equipment reduce delays and downtime.

LOWER COST

Save on scaffolding, machinery, and labor without compromising quality.

MINIMAL DISRUPTION

No ground obstruction, no shutdowns, no guest or operations impact.

MAXIMUM FLEXIBILITY

Reach vertical, curved, or confined spaces where other methods fail.

ECO-FRIENDLY FOOTPRINT

No heavy machinery, reduced emissions, and less material waste.

WE GO WHERE OTHERS **WON'T.**

DELIVERY APPROACH

At Warrior Group, our rope access operations follow a proven 6-step methodology that ensures maximum safety, speed, and accountability, on every job, in any environment. From project scoping to post-job maintenance guidance, we manage the full access lifecycle with precision and professionalism.

SITE ASSESSMENT & RISK PLANNING

We begin with a comprehensive site survey to understand the access challenges, structure types, and environmental conditions. This includes hazard identification, anchor point analysis, rescue planning, and safety risk assessment.

METHOD STATEMENT & WORK PLANNING

We develop a tailored method statement, including access routes, equipment configuration, team structure, task sequencing, and safety compliance documentation.

MOBILIZATION & EQUIPMENT SETUP

Our teams mobilize to site with all required gear, rigging systems, fall arrest equipment, PPE, communication tools, and rescue kits, ready to operate without scaffolding or heavy machinery.

EXECUTION WITH LIVE MONITORING

Work begins under live supervision by team leads and safety officers. Progress is tracked in real time, and daily briefings ensure all technicians are aligned on risks, priorities, and performance targets.

QUALITY CHECK & CLOSE-OUT REPORT

Upon task completion, we conduct a full QA/QC inspection and generate a close-out report that includes photographic documentation, inspection forms, and compliance checklists for the client.

CLIENT HANDOVER & MAINTENANCE ADVISORY

Our teams mobilize to site with all required We hand over all deliverables: certificates, reports, and maintenance advice and remain available for follow-up works, future inspections, or recurring maintenance support.

KEY SAFETY PROTOCOLS WE FOLLOW

At Warrior Group, safety isn't just a box to tick, it's the backbone of every rope access project we deliver. Working at height presents unique risks, and we take every measure to eliminate them through rigorous planning, certified training, real-time supervision, and proven protocols.

DUAL-ROPE REDUNDANCY SYSTEM

Every technician operates on a primary working line and a backup safety line, each independently anchored and monitored.

DROPPED OBJECT PREVENTION (DROPS)

All tools and equipment are tethered with load-rated systems to prevent injury, property damage, or operational disruption.

SITE-SPECIFIC RISK ASSESSMENTS & RESCUE PLANS

Each job is supported by a detailed method statement, risk analysis, and emergency rescue procedure tailored to the site conditions.

DAILY TOOLBOX TALKS & PRE-JOB BRIEFINGS

Every rope access operation begins with a safety briefing, including hazard updates, access routes, task planning, and weather checks.

REAL-TIME SUPERVISION & CHECKLISTS

Our supervisors are always present on-site, overseeing operations and conducting live safety audits.

PPE & EQUIPMENT COMPLIANCE

All PPE, rigging gear, and rescue kits are regularly inspected, tagged, and logged using digital systems to ensure compliance and traceability.

A tall building with a grid of windows. Three workers are visible on the exterior facade, likely performing maintenance or construction. The workers are wearing safety gear and are positioned at different heights on the building. The overall scene is dimly lit, suggesting dusk or dawn.

CASE STUDIES

RSG AIRPORT

Warrior Group's Extreme Terrain Team played a critical role in the successful delivery of the Red Sea Global International Airport roofing works, overcoming extreme height, curvature, and access limitations on one of Saudi Arabia's most iconic architectural structures.

Our technicians provided high-precision installation support, bolt torque inspections, and visual QC across the sweeping canopy design, without the need for scaffolding, cranes, or lifts. Over 1,800 man-hours were completed with zero safety incidents, delivering project on time while maintaining the project's environmental and aesthetic integrity.

This project showcased rope access not just as an alternative, but as the superior solution for complex infrastructure.

ROOFING

RSG SKYBRIDGE

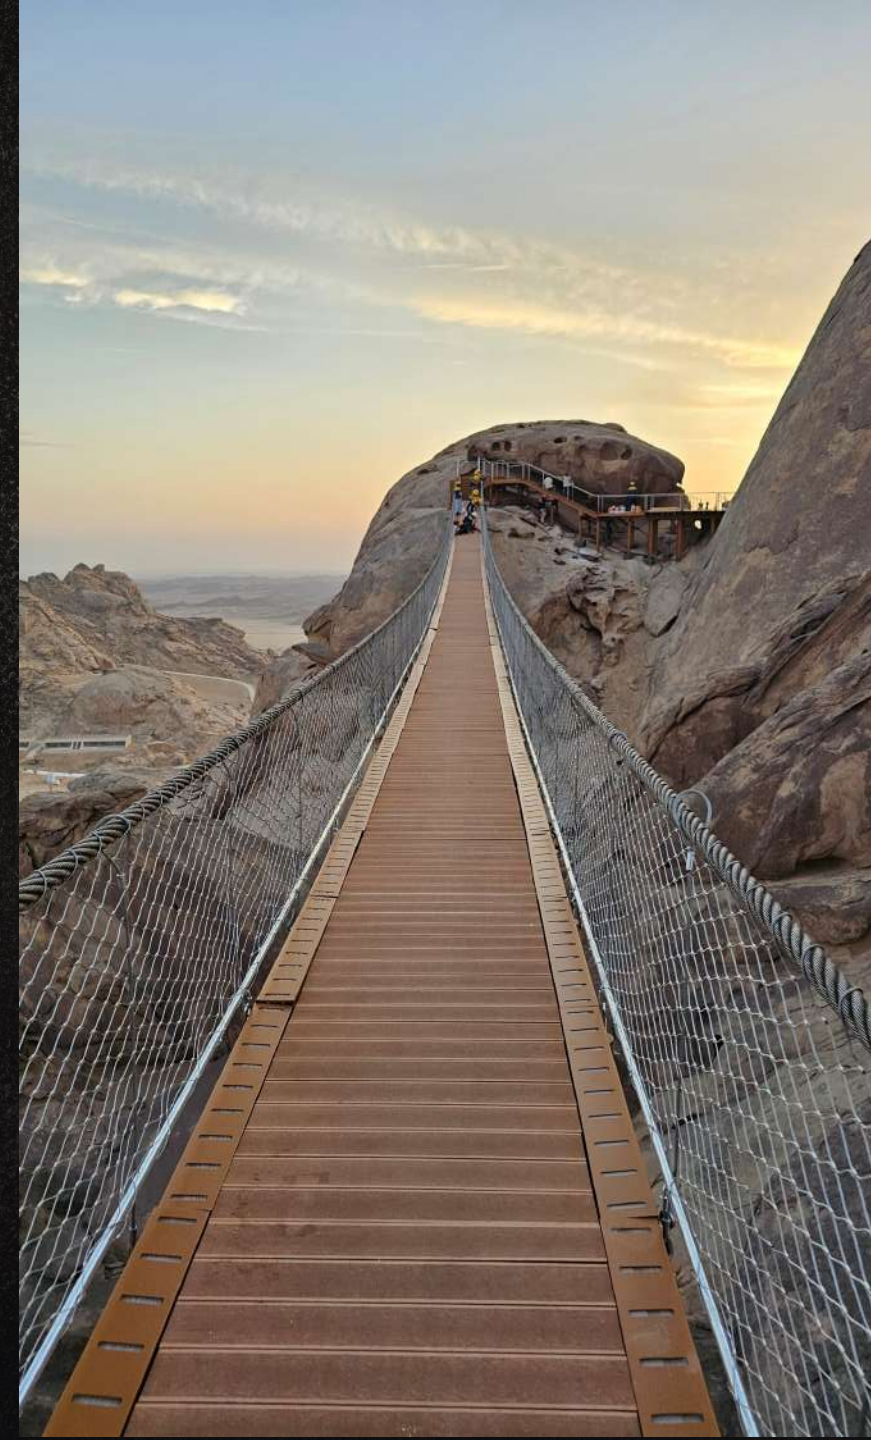

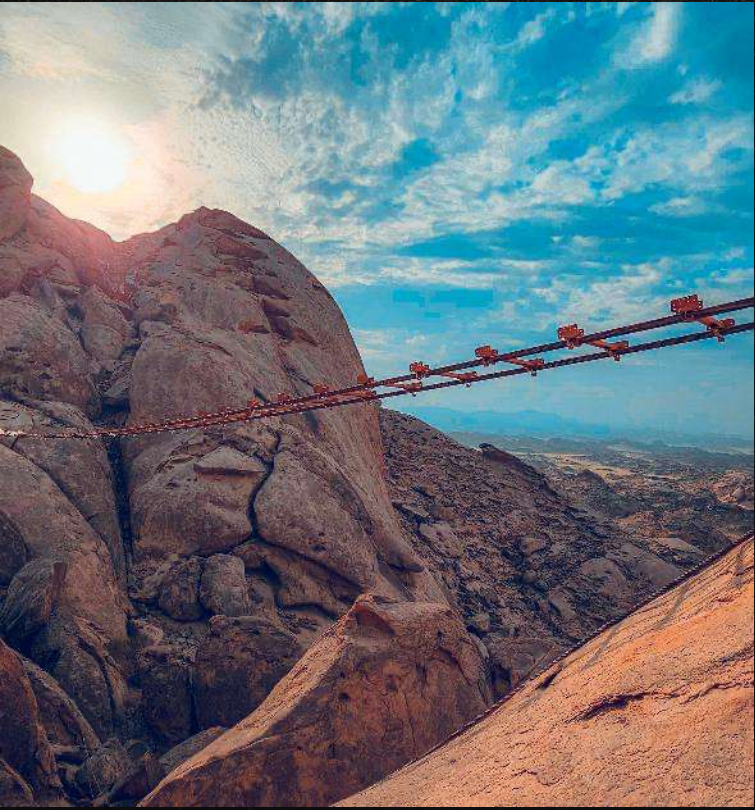

Warrior Group successfully delivered a suspended bridge and supporting infrastructure for Red Sea Global in one of the region's most rugged mountain environments, where traditional access methods were rendered unfeasible due to steep inclines, loose terrain, and sensitive ecosystems.

Leveraging advanced rope access techniques, our expert teams navigated cliff faces and deep ravines to rig anchor points, install structural components, and execute inspections, all without the need for cranes, scaffolding, or heavy ground equipment.

This approach ensured minimal environmental impact, maximum crew safety, and seamless delivery of complex works across extreme topography. The project stands as a benchmark for high-altitude infrastructure built with precision, sustainability, and rope access expertise.

DESIGN | CONSTRUCTION

ALULA

ADVENTURE HUB

At the AlUla Adventure Hub, Warrior Group harnessed the power of rope access to deliver complex installations across the dramatic sandstone cliffs and mountainous terrain of the AlUla region, where vehicle access was limited and environmental preservation was paramount. From installing highlines and via ferrata to securing anchor points for ziplines and swings, our rope access teams operated with surgical precision across vertical rock faces and remote ridgelines.

Our technicians navigated extreme heights, shifting weather conditions, and heritage-sensitive zones to execute infrastructure works safely and efficiently, without the need for scaffolding or invasive equipment.

ADVENTURE HUB DEVELOPMENT & BUILD
SITE MANAGEMENT & OPERATIONS

The background of the image shows two large, industrial-grade auto belays. The one on the right is a ZipStop, with a white circular label that reads 'zip STOP' in large letters, 'ZIP LINE BRAKE' below it, and the 'head rush' logo at the bottom. The one on the left is a TRUBLUE, with a white circular label that reads 'SPEED' in large letters and the 'head rush' logo below it. Both devices are yellow and black, and are connected to thick steel cables. The overall scene is dimly lit with a blue and yellow color palette.

ADVENTURE GEAR

We equip adventure with gear that's built to perform. From ZipStops to TRUBLUE auto belays, we supply, manage, and maintain certified, battle-tested equipment for high-intensity environments.

ADVENTURE GEAR

Warrior Group is proud to be the official distributor of Headrush Technologies, a global leader in magnetic braking systems for adventure and recreation. Known for innovation, safety, and reliability, Headrush products are trusted worldwide for climbing, zip lining, and free fall experiences.

Our lineup includes the TRUBLUE Auto Belay, the most trusted auto belay system for climbing walls, the ZipSTOP Zip Line Brake, delivering smooth, controlled zip line braking, and the QuickFlight Free Fall Device, offering safe, adrenaline-packed free-fall thrills.

Beyond supplying, Warrior Group provides expert consultation, installation, and ongoing maintenance to ensure optimal performance, safety, and peace of mind for every operator.

[EXPLORE PRODUCT RANGE](#)

ADVENTURE ASSETS

Warrior Group is the exclusive provider of high-performance adventure assets, delivering exceptional experiences that set a new standard for thrill-seekers.

I-TILT

We deliver end-to-end adventure infrastructure, from asset installation to full design and construction. Our turnkey services cover everything from entry zones to custom adventure spaces, ensuring a seamless, high-impact experience.

One of our standout attractions is I-TILT, a groundbreaking adventure experience that combines uniqueness and thrill. I-TILT is a highly versatile and flexible attraction that provides a unique experience as it gently, safely, and comfortably takes participants the edge from an upright position to a thrilling 65-degree incline.

Designed for safety, comfort, and high repeatability, I-TILT is fully modular and can be integrated into observation decks, towers, rooftops, and mixed-use destinations. It's a crowd magnet and social media sensation, offering an adrenaline-pumping moment that's visually spectacular and commercially scalable.
